Chief Executive’s Statement

Hi there. I’m delighted to report another great year for Clancy. We have gone from strength to strength in all of our offices and continue to add significant value to many projects for a wide range of clients, both established and new.

I’m just over 6 months in to my role and it’s been a whirlwind! It was hugely overwhelming to receive so much positive feedback when we made the announcement back in April and served as a reminder that we are respected by so many in the industry.

Personally, I’m incredibly excited by the prospect of leading Clancy through the next phase of our development, having total confidence in the Clancy Team across the country, not to mention the continued support of our valued clients and fellow professionals that we rely so heavily upon.

Lucy Cunnah joining the Board as our Finance Director has strengthened us significantly. Similarly, Neil Robson’s promotion to Director, largely associated with our growing Scottish MEP offer is another boost. Both bring terrific facets to the business.

Our current 5 year Strategic Business Plan draws to a close in 2020 and we are pleased to say that, on virtually all fronts, we will have achieved objectives we set back in 2015. We are now developing our goals for the next 5 years and beyond. We do so from a very strong platform of sustainable growth.

If there is one hugely rewarding aspect of undertaking this exercise, it is that it serves to remind you of so many positive attributes of Clancy. A key part of the process so far has been to engage all of our 200 strong team in the process, a step we considered of vital importance in reinforcing our culture. We were delighted to find that our team valued this as much as we did. We often take for granted the shared ethos for doing things right, offering best value advice and solutions in a collaborative arena. Ultimately this leads to successful projects which gain genuine respect from our industry peers and this is truly rewarding. Our Silver accreditation with Investors in People is testimony to the same, but we aren’t resting on our laurels. We have already set the target for Gold on our next review!

We genuinely believe strong, trusting and longstanding relationships, both external and internal, are what make for a dynamic setting for all to flourish, have pride in what we do, and ultimately leave our legacy in the built environment.

We take seriously our role in the wider community and I’m sure you’ll see, we are taking great strides to make a difference where it matters, be this through fundraising for fantastic causes, offering support to our local schools, sports clubs and universities to name just a few examples.

Thanks to all of you that have supported us in whatever capacity on the journey thus far and for those of you that haven’t, we would like to be part of your plans!

Whilst writing, I would make the offer that, should you, or any of your colleagues want to learn a little more about Clancy, then please feel free to contact me personally or any of the Team.

And finally, please note no mention of cycling before there are any comments! However, I will be on the bike to France again in 2020, if anyone fancies a jaunt?

Thanks,

Martyn Headley
CEO

Cycling for Stuart &

The annual Clancy Charity Bike Ride took place in May, with over 80 cyclists taking part.

The event has become a firm favourite with cycling enthusiasts within the property and construction industry, cementing its place in the North West Region networking calendar!

Get in touch to join us on 13th May 2020!

In 2018, Director Mike Hooper’s son, Stuart was diagnosed with a rare form of sarcoma cancer of the spine, which is a cancer of the bone and soft tissue. It is one of the hardest to diagnose, and treat. Stuart’s battle with this terrible disease continues and we obviously wish him well.

In July, Clancy joined forces with Stuart’s employer, Severfield (UK), to put together a team of cyclists to undertake a 150 mile Coast to Coast challenge raising funds and awareness for Sarcoma UK. This charity supports people like Stu, by helping to get earlier diagnoses, provide patients with specialist advice and get them the best treatments possible.

In addition to Sarcoma UK, we regularly participate in fundraising activities across all our offices for local charities throughout the year. We sponsor local grassroots football and rugby teams close to most of our regional offices, and are involved with primary, secondary, higher and university education establishments, whether it be promoting STEM subjects through competitions with our younger audiences, through to mock interviews, careers fairs, placements, guest lectures and university prizes. Social value is most certainly high on our agenda!

Key Facts

- Increase in turnover to £13m
- Appointment of 2 new female Board Directors
- Over £15,000 raised for Sarcoma UK
- Over 100 school projects over the last year

Breaking News

We were shortlisted for Employer of the Year Silver at the 2019 Investors in People awards, having achieved Silver level accreditation earlier this year.

Hunslet Road, Leeds for Guinness Developments Ltd, is part of the South Bank Regeneration Scheme. The development has won a Housing Design Award, before a brick has even been laid! Phase 1 has a value of circa £50m comprising 313 residential units. The overall scheme will ultimately deliver up to 928 units.
